

Endless Conveyor Belt

Endless conveyor belt is conveyor belt that has been made into endless without joint in the process of production.

Features:

1. Its features is that there is no joint in belt carcass, and the belt shall not be shortened in service life due to early failure in the joints of the belt. The belt is flat in surface and even in tension, thus it runs smoothly and its elongation in working is low.

2. cover rubber classification : General, oil, heat and chemical – resistant etc.

3. We can make endless belt of light conveyor belt, general use belt and heavy duty belt according to customers requirement.

Application :

- Chemical Plants
- Mines Industries
- Agriculture Industries
- Building
- Metallurgical Industries
