

PVC Solid Woven Conveyor Belting

Features:

- ▣ Low stretch.
- ▣ Low maintenance.
- ▣ Anti-static. pvc transmission belts
- ▣ Flexible.
- ▣ Lightweight.
- ▣ Impervious to moisture, acids, oils, gases, sunlight.
- ▣ Excellent fastener holding.
- ▣ Edge of the belt is abrasion resistant.
- ▣ Defect of ply separation cannot occur.
- ▣ Endless belt splicing

Applications:

- ▣ Cement
- ▣ Fertilizers
- ▣ Steel

Advantages:

- ▣ Clean and environment friendly transportation eliminating all spillage
- ▣ Low noise emission
- ▣ Curvature possible in both horizontal and vertical planes associated with steeper angle of inclination
